Mark,

Good luck with your next assignment!

Michelle and Sibil, let us know when you're free to touch base. Thanks!

Katie

I appreciated the update on plans for the General Iron issues. I am attaching the Congressional petition letter regarding this operation.

I am starting another assignment in the CDC COVID response starting Monday for 2 months, so **Michelle Colledge** and **Sibil Varghese** will be our leads on this response. They will also be coordinating with our HQs about communications with the Congressional offices on their request.

Mark

Subject: General Iron follow-up

Hi Mark,

I wanted to follow up on our short conversation about the request for ATSDR to conduct a health consultation on the southeast side. Genevieve, John and Eileen are the experts on General Iron, so I wanted to connect you with them.

EPA has also received inquiries about General Iron and it would be great to coordinate. Let us know your availability to meet and we'll set something up. Thanks and have a great weekend!
